Objective

I am an Information Technology major, I would be interested in working programming, website design, or cyber security jobs. I'm a very handworker and been interested in computers since high school. Whatever you need I will always give my 100% until the customer is satisfied. You will not regret hiring me at all I hope I am what you are looking for.

Experience

I work for Amazon as a prime shopper in Whole Foods Market For 3+ years.

I worked at McDonald's

Worked in Shoe depot In Jefferson mall

2017 – 2022

Website designer, Cyber security, Programming

I have practiced cybersecurity, and programming in college for 5+ years. I have passed my all computer classes working with word document, PowerPoint, excel. I can do whatever responsibilities my computer job requires.

Skills

My skills include: PowerPoint presentation, Word Documents, Excel, Website Design, and JavaScript. I can complete projects individually and with a group. I am great people person. I work with no complaints at all, I'll do whatever my company wants me to do.
